The Ullevi Arena has a superfast Mondo Surface that has produced several world records over the years. The records set in 1995 in both men and women triple jumps are still unchallenged.

Please take some time to view the results (at www.vuspelen.se) from previous years and you will be happy to see that not only are we providing an outstanding meet for an international tour in terms of the level of results but also the highest possible standard of officiating.

Göteborg is also a perfect summer city with lots of things to do when you're not competing. The beautiful archipelago and the amusement park Liseberg are in themselves spectacular visits during your stay.
